

# **Flying back-up babe wows the fans...**

The Wild'r at Heart nostalgia funny car team came to the UK in 2011, made check out passes at the Mopar Nat's and a half pass nine second ET at Shaky County's Hot Rod Drags. This year they stepped up big-time, running a first eight, a .22, at Santa Pod's Dragstalgia and then driver Ramon van der Weurf ran his first seven, a 7.01, to blow the doors of a genuine nitro burnin' nostalgia fuel coupe - that's definitely something to write home about!

**Words and photos

**...and Rockin' Ramon sets a new  
Euro/Scandinavian Nostalgia funny car record**

Kirsten was getting rave reviews and also steppin' up in style, returning with the team to the Hot Rod Drags at Shakespeare County Raceway to give fans their finest nostalgia fummy car show ever

Flying through the air with the greatest of ease, Kirsten backed Ramon onto the sweet spot and he launched like a tiger...

...carrying the front wheels beyond the tree to run his quickest and fastest pass yet, a 6.77 at 206 mph

Ramon alters the air pressure before his next run, where the Dodge got up on the slicks, hiking the front end on a nostalgic tall tyre burnout

Ramon smoked his way to half track and Kirsten flew after him, being chased by a blown Corvette and the fans loved it! What chopped Model B? I'm just lovin' her flowing golden mane!

A wall of smoke engulfed her to howls of anger...

...and then cheers as she emerged to guide the Dodge back to the start line in fine flyin' style

Agent 1320's right; back-up babes are boss. Kirsten's a winner all the way and with numbers like these, so's Ramon

Of the three at left, Kirsten's the only one dressed for a line dance! A late launch perhaps, but for the first time in many a moon the power of a blown alcohol car took my knees away! Ramon thundered by, clicking off early for a blistering 6.53, setting a Euro/Scandinavian nostalgia funny car ET and speed record!

In one very short season the Wild'r at Heart team blasted from an 8.2 to a first seven, a zero one! And now a pair of 200mph sixes, a totally awesome performance from a rookie nostalgia funny car team – all we need now is for Ramon to switch to nitro and we'll all be rockin'
